FIELD GROWN

Roses, Perennial- Plants, Bulbs and Seeds

The Pudor Farms

PUYALLUP, WASH.

We start to dig **ROSES** about November 1st to supply those customers who prefer to plant roses in the fall. The majority of people prefer to plant in the spring (not later than April 1st). In either case, please state when you want your roses shipped, but order early in the fall, as a better selection can be secured.

All bulbs, such as **TULIPS, HYACINTHS, CROCUSES**, must be planted by November—the earlier the better.

All **PERENNIAL PLANTS** do better when transplanted during the fall.

We sell **PEONIES** for fall planting only.

GENUINENESS—We exercise care to keep all varieties true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the stock. All sales made subject to stock being unsold when order is received, or loss by any and all unavoidable causes. Freight shipments travel at risk of purchaser.

ROSES

PRICES FOR ALL ROSES, IN STRONG, STURDY FIELD-GROWN SPECIMENS THAT HAVE GIVEN UNIVERSAL SATISFACTION AND PLEASURE TO ALL OUR ROSE CUSTOMERS LAST YEAR, 25 CENTS (EXCEPT WHERE NOTED). ALL PLANTS HAVE ALREADY BLOSSOMED IN OUR NURSERY ROWS THIS PAST SEASON, AND ALL WILL BLOSSOM PROFUSELY NEXT SEASON WITH ORDINARY GOOD CARE.

The "Best" Hardy Garden Roses (HYBRID PERPETUALS)
